COMMUNISM NOT A MENACE; CHINA COMMUNIST FOR AGES, IN OPINION OF TONG SHAO-YI

Former Premier Sees Commission Of Government As Solution Of Chaos; Like Switzerland

British Obstinacy Greatest Obstacle To Settlement For Canton Hongkong Troubles; Need Open Mind; Should Replace Hated Canton Consul

By Miles W. Vaughn
United Press Staff Correspondent
Shanghai, March 19.—"Russian Bolshevism is not a menace to China and the Chinese have little if anything to learn from the governmental experiments of Russian Communists," Tong Shao-yi, former premier of China, told the *United Press* today.

"China does not need to look to Russia for communistic precepts," the veteran statesman said. "We were practicing a fine form of communism in China long before the Russian radicals ever conceived such a plan. The very structure of Chinese national life is communistic, as a result of the family and village life which always has prevailed in our country. We know more about family and community co-operation than any other people. We worked out the details of family communism thousands of years ago and Russia can teach us nothing in this respect."

Commission Form
Tong Shao-yi sees a commission form of government as a solution for the present chaos in China. He can visualize a sort of union of autonomous provinces in China, with the commission plan extending from the lowest of the national political organizations clear through to the top. Such a government, the statesman believes, would be little more than an application of the Swiss theory of commission government for municipalities to the whole of the huge Chinese domain. The province would select commissioners to a central government which would be the national administration.

No Fear Of Russia
The veteran statesman does not fear Russian aggression or a copying in China of the bloody pages of terrorism by which Russian communism placed itself in power.

"We Chinese do not like bloodshed," Tong said, "and in working our way toward a new national government we have no strongly organized monarchist class to fight as the Russian communists had."

Tong Shao-yi is watching closely the events in South China, where Canton is in bitter competition with the British colony of Hongkong against which the Cantonese have declared a strike and boycott.

"I do not believe," the former premier said, "that the Canton strike committee which is enforcing the strike and boycott against Hongkong will ever get to a place where it will be stronger than the Canton government."

Delegates Return Home From Geneva To Face The Music

German Opposition Prepares; Briand Given Vote Of Confidence But Position Weak; Chamberlain To "Mount Scaffold" Today

Asiatic
Berlin, March 21.—The German Government considers that the Locarno treaties in regard to their political consequences will continue and is again entering into negotiations concerning the occupation question. The foreign Minister Dr. Stresemann is expected to refer to this matter before the Reichstag on Monday.

According to reliable sources, the German Government believes that there is every likelihood that Germany will become a member of the League with a permanent seat next September, although no German delegation will go to Geneva until this seat has actually been assigned.

At a Cabinet meeting today under the chairmanship of President Von Hindenburg the delegation's attitude at Geneva was unanimously approved.

Opposition Prepares
The German Government will ask for a vote of confidence, when the debate on the Geneva conference begins in the Reichstag next week. The communists demand that the government withdraw from League membership altogether. The opposition is preparing for a lack of confidence vote.

Kellogg Delays Blockade Bill

Asks Borah to Hold Up Resolution Asking Pay From Britain For U. S. Losses

Router
New York, March 20.—The Washington correspondent of the *New York Times* understands that Secretary of State Kellogg has requested Senator Borah to withhold temporarily his efforts to press his resolution calling upon the State Department for information with regard to the presenting of the claims of American citizens against the British Government for losses and damage to property through operation of the British blockade during the War. Mr. Kellogg is believed to have based his request upon the ground that he desires time to inquire into such claims before taking action.

Asiatic
Berlin, March 21.—The French perfume manufacturer M. Coty, who recently donated 100,000,000 Francs to the French government as a relief-measure towards the financial situation appeals to the French churches to do the same. The Cardinals of Rheims, Lyons, Orleans and Bordeaux agreed, whereas the archbishop of Paris obtained from participation.

Chang Shih-chao Challenges; Paper Claims Evidence

Former Education Minister Makes Public Denial Of Charge He Gave Firing Order; Press Answers

Chung Mei
The Chief Secretary to the Chief Executive, Chang Shih-chao, has inserted a declaration in the Chinese press refuting the report carried in the "Shih Chieh Wan Pao" concerning his responsibility for the shooting of students last Thursday. At the same time the "Shih Chieh Wan Pao" against whom the former Minister of Justice threatens to bring a libel suit, replies that it is ready to produce its evidence and expresses the hope that Chang Shih-chao will personally appear in court this time, which he failed to do on a similar occasion in the past.

Chang's Statement
Chang Shih-chao's statement carried by the local papers reads: "The World Evening Post" of the 18th in reporting the tragic incident which took place in the square in front of the Cabinet office went so far as to state that the chief instigator was no other than Chang Shih-chao, Chief Secretary of the Chief Executive's Office, which could be shown by the fact that when the bodyguard of the Cabinet Office asked over the telephone for instructions as to what to do in dealing with the demonstrators, he replied 'open fire, if necessary'.

"It must be pointed out that the present government is a joint organization of the Chief Executive's and Cabinet offices. What is reported in the 'Shih Chieh Wan Pao' is a mere fabrication for the reason that should it be necessary for the bodyguard to ask for instructions, it would be in direct touch with such authorities as the Premier or the Military Department of the Chief Executive's Office. It would be ridiculous if the Secretaries ventured to make the above mentioned answer encroaching upon the duties of others."

Wasn't There
"So far as the recent tragedy is concerned, it was not until General Li Ming-chung, acting Commandant of the Peking Garrison, reported this matter to the Chief Executive's Office where I was called to participate in a conference, that I was informed of the unhappy event. It is, therefore, ridiculous that I am abused as the instigator."

"In short, the 'Shih Chieh Wan Pao' is deliberately making trouble. In fact, it has broken the law and in addition to declaring that I am prepared to take the matter to law for settlement, I hereby make this statement for public information."

The paper in a counter statement asserts that its reports of the 18th in connection with the ordering of the shooting were not inventions and it has positive evidence.

Plan To Bury Victims In Western Hills

Students' Union Asks Permission To Have Bodies Laid In State In Central Park; Tsinghua Student Dies

Chung Mei
A burial place in the Western Hills for the student dead is reported to be contemplated by the Peking Students' Union.

In the meantime the Union is said to be seeking permission to lay the bodies in state in Central Park where people might go to pay their respect to the victims.

Another Death

Kuo Wen
Of the three Tsinghua students wounded in Thursday's affray, one succumbed Sunday at the P.U.M.C. Hospital. The body of Mr. Wei Chu-shan who was a junior of the College, was sent to Tsinghua yesterday, and his friends plan a memorial service for him today or to-morrow.

Blame Kuominchun

The Students' Association of the National University sent a telegram to General Chang Chiang and the Kuominchun leaders stating that though the massacre of students was perpetrated by Tuan Chi-jui and his followers, the Kuominchun, who is responsible for the capital, cannot escape blame. To maintain its friendship with the people and free itself from the evils of the militarists, the Kuominchun leaders are urged to comply with the demand of the people to punish the murderer and his accomplices and refrain from actions against the masses. The Kuominchun is asked to declare itself toward this.

An association known as the Federation for the abolition of the treaties and the expulsion of Marshal Tuan Chi-jui was organized Sunday at a joint meeting of more than two hundred organizations in the Capital.

Supply Shortage, Not Peace, Cause Of Retreat, Report

Plan Stand At Yangliuching, Fengtai, And, Finally At Nankow, Where Jehol Troops Will Join, Is Rumour

Router
The sensational retreat of the Kuominchun forces which is taking place on all fronts is said to be due mainly to shortage of ammunition, supplies that were expected not having reached the Kuominchun armies. Orders for the general retreat were given on Saturday, when General Chang Chih-chiang sent out his circular telegram.

The retreat on the Machang front began Sunday morning, though General Lu Chung-lin's troops had been thrown back a considerable distance during the previous three days. Horse, foot and artillery yesterday were passing Tientsin as rapidly as possible by train and by road, while a temporary front is being established at Yangliuching, which will be held if possible until all the retreating troops pass that point. Meanwhile fresh troops are being sent to Fengtai and Tungchow.

Fengtai has been selected as the second headquarters of the Kuominchun rearguard, while the forces sent to Tungchow are to guard against a possible attempt to cut off the retreat in the region of Peking by the Fengtien forces.

Farther in the rear still, a considerable number of troops are concentrating at Nankou Pass. Troop trains from Tientsin were passing Peking all day yesterday, going to Nankou Pass. It is reported that the Kuominchun troops in the Jehol region are also retreating to Nankou.

The stand at Fengtai and other points in the region of Peking is likely to be of some duration, for these points will not be abandoned until the Kuominchun forces in the region of Paoingfu reach here. All outlying units are now hastily concentrating at Paoingfu.

General Sun Yueh is said to have reached Langfang. General Lu Chung-lin and his staff and General Tang Chih-tao have arrived in Peking. General Lu is said to be discussing measures for the maintenance of order in Peking during the Kuominchun retreat.

Sunday General Li Ming-chun called on the Premier and urged him to resume office, as it was essential to have a Cabinet functioning during the retirement of the Kuominchun. General Chia undertook to carry on for the present, and sent notice to all the members of the Cabinet to meet this morning.

Tuan May Remain Even Though Power Shifts In Peking

Marshal May Keep Post If Chang Comes, Is Political Opinion; Wu Doesn't Want Him

Kuo Wen
According to information in local Chinese political circles, Marshal Tuan Chi-jui will be able to retain his present post if the Kuominchun should surrender the control of Peking in favour of Mukden. Marshal Chang is said to be very favourably disposed toward the Chief Executive because the latter refused to countersign the mandate dismissing General Chang Tsung-chang from the Shantung Tupanship and appointing General Pi Shuchen in his stead, although the Mukden Warlord is not satisfied with the followers of Marshal Tuan Chi-jui.

Marshal Wu is understood to be in favour of the retirement of the Chief Executive as he has been antagonized by the latter's punitive mandate, but it is generally claimed that Marshal Chang and the final Marshal Wu will have the final say in the future government.

Cabinet May Change

Political wiseacres believe it certain that the Chia Cabinet will go and that pending the establishment of a formal Cabinet, General Wang Shih-chien will be made the head of a stop-gap ministry. Marshal Chang favours Mr. Liang Shih-yi as formal Premier, but it is understood that General Cui Yun-peng is also bidding for that post, having recently sent a delegate to Peking to make overtures to the Chief Executive.

Schools Ask Judicial Inquiry Into Thursday's Shooting; Press Indignant

Kuo Wen
Shanghai, March 21.—Chang Chia-shen and the professors of all universities and schools jointly issued a telegraphic manifesto yesterday dealing with the shooting tragedy last Thursday. It suggests that a special judicial commission to be composed of respectful and honest judges and principals of the various universities and representatives of public organs, shall be formed to institute an investigation, the result to be submitted to the judicial court for reference and judgment. The press in commenting on the large number of casualties is unanimously attacking the Chief Executive in high indignant terms for the grave tragedy.

Wang Sends Second Plea To Wu And Chang; Peace Envoy Says Chang Willing To Call Quits; No Word From Wu

Kuominchun Withdraw Forces From Front; May Still Be Fought For Peking; Train Service With Tientsin Suspended Due To Troop Movement; Lu Chung-lin In Peking

Chung Mei
The Kuominchun leaders have replied to the peace appeal of Marshal Wang and having begun the withdrawal of their troops.

Marshal Wang is reported to have been perturbed by the failure of Marshal Chang Tso-lin and Marshal Wu Pei-fu to reply, and to have addressed a second telegram to them, making a still more earnest plea for peace and the cessation of civil wars.

Kuo Wen
Mr. Chang Shih-shen, the Kuominchun peace envoy in Mukden, has telegraphed to the Kuominchun leaders in Kalgan and Peking, saying that Marshal Chang Tso-lin is willing to cease hostilities and discuss peace. Marshal Chang does not insist that Chihli be given to General Li Ching-lin but demands that the Kuominchun troops at Tungshan and Luanchow be withdrawn and that a portion of Fengtien troops be allowed to be stationed at Tungshan. The reason given for the latter demand is stated to be that Mukden needs the workshop at Tongshan for the repairing of the many locomotives in its possession.

According to Mr. Chang, Marshal Chang also denies that he has reached a definite agreement with the former Loyang Warlord regarding the distribution of political spoils after their victory over the Kuominchun. As regards other questions, the Mukden Warlord says that they admit of amicable adjustment.

The Withdrawal

The Kuominchun withdrawal from the fighting lines north and south of Tientsin, was reported to Marshal Tuan Chi-jui yesterday morning when Commander Lu Chung-lin and Mayor Liu Chi, who just returned from Tientsin, called at eleven o'clock.

They are reported to have explained that as a result of the appeal for peace made by Marshal Wang and the telegram accepting his proposal issued by the Kuominchun, they have ordered their troops back to Tang Kuan Tun and Paoingfu, and pending a negotiation of peace terms, they promise to maintain peace and order in the capital.

Other high Kuominchun commanders now in Peking include Tang Tse-tao and Cheng Ching-sheng, who came by special train, and who conferred with Commander Lu yesterday morning. A reception was held last evening of the returned commanders.

Hsu Chien's Speech

In view of the Government's charge that communism was advocated at the people's demonstration of March 18, we are publishing a full report of Mr. Hsu Chien's speech made at the mass meeting. The meeting was held solely for the purpose of asking the Government to take a strong stand against the ultimatum of the powers, and had nothing whatsoever to do with communistic propaganda.

Unless the Government assumed that under the circumstances the people had no right to express opinions on the subject of the Taku ultimatum, a more definite proof than the mere holding of the mass meeting is necessary for the substantiation of the charge of communistic propaganda.

The following is a translation of the speech published in all the Chinese newspapers of March 19. As Mr. Hsu Chien read from a prepared paper, confining himself to a concise statement of the main points, it was possible to take down practically the whole of his speech.

Mr. Hsu devoted the main part of his speech to developing the idea that the 1901 Protocol had been tacitly assumed as null and void even by the foreign powers themselves, and it was on this point that he received the most enthusiastic applause from his audience.

Five Points

Five main points were made by Mr. Hsu Chien:

(1) We have met today to discuss a national question in which our national interests are pitched against those of the imperialistic powers who have combined forces to oppress us. This is the time therefore for us to forget all party interests, and to merge our private quarrels in a united fight for our national freedom.

Protocol Dead

(2) The 1901 Protocol was an agreement established between the foreign powers and the Imperial Manchu House for the oppression of the Chinese people. The people of the Republic cannot recognize such an agreement, inasmuch as it implies an infringement of our sovereignty and is one of the unequal treaties. But it is not necessary to urge this point, because in the course of time, the foreign powers have already tacitly assumed that the Protocol is no more valid. This could be proved by three facts.

(a) The Protocol provides that no garrison of soldiers should be stationed within thirty miles of Tientsin. When Li Ching-shan carried on his military operations in the neighborhood of Peichang, the powers did not protest.

(b) The Protocol provides that the line of communication between Tientsin and Mukden either by land or by sea may not be stopped. This line therefore includes Chinwangtao and Shan-haikuan. When Chang Tso-lin waged war at these two latter places, however, the powers also did not make any protest. On the other hand, some power has actually given Chang Tso-lin assistance in his military operations. This is the second proof that the foreign powers themselves have recognized the Protocol to be no more valid.

(c) When the Fengtien warships were attacking Peitang from Taku, the powers also did not protest. Only when the de-

feat of Chang Tso-lin seemed imminent and the Kuomintang was on the point of defeating the enemy, did the powers make use of the terms of the long dead treaty to protect Kuomintang's enemy.

Powers Taka Sides

This is exactly a repetition of the trick Japan played in helping Chang Tso-lin to defeat Kuo Sung-lin, and is tantamount to the virtual taking part of the foreign powers in our civil wars.

(3) At the present moment, the foreign warships are centering around Taku, and ready to take measures to awe us into submission. Against this policy of intimidation, the Chinese people ought to lodge a strong protest, and the people of Peking should resolve not to be subjugated by imperialistic threats, even when the imperialist soldiers have come right to Peking.

Who Enemies Are

(4) Not all the signatory powers of the Protocol have attached their names to the Taku Ultimatum, and we should make clear to ourselves who our imperialistic enemies are. These are principally Japan in the north, and England in the South, Germany, Austria, and Soviet Russia have not signed the ultimatum. Also the United States had at first the intention of not joining in with the other powers.

(5) The motive of the representatives of the imperialistic powers in sending the ultimatum was to help the Fengtien party. Japan had notified the Kuomintang only about the arrival of one warship in the morning, but, as a matter of fact, two arrived in the afternoon, both the number and the time being different from what was reported. The Japanese warships really came in to serve as a protection for the Fengtien warships which were coming behind. It was because Japan saw that Chang Tso-lin's forces were about to collapse, with not too pleasant consequences for their own interests in Manchuria, that these warships were sent to save Chang from his final defeat.

U. S. President's Father Laid To Rest Amid Snow

Solemn Rites In Single New England Style For Colonel Coolidge

United Press

Plymouth, Vermont, Mar. 20.—While swirling snow today succeeded a driving rain last night, the body of the late Colonel John C. Coolidge lay this morning in state in the farmhouse room where months ago the Colonel administered to his son the oath of office which made him President of the United States.

From this same room, years ago, the body of Colonel Coolidge's first wife went forth to rest on the hillside where many other Coolidges lie buried and where the President's father will now join her.

The old-fashioned folding doors have been thrown open to give a view from the sitting-room where, at 2 o'clock this afternoon, a group of old friends and neighbors will be gathered to join with the President and his wife in paying a last tribute.

There will be no hymns, no eulogy. The Rev. John White of Sherbourne, Vermont, an old friend of the Colonel's, will read a simple service. That will be all.

Friends are busy with snow-shovels, clearing a way to Woodstock and making a good road so that the President and other attendants at the funeral may come and pass to the cemetery without difficulty.

FILIPINOS SEEK SUPPORT OF MOHAMMEDANS IN STRUGGLE FOR NATIONAL INDEPENDENCE

By William R. Kuhns

United Press Staff Correspondent

Manila, March 18.—It is officially announced that the Supreme National Council, the extra-legal coalition of the leaders of both Filipino political parties, will visit Mindanao and Sulu about the middle of April for the purpose of converting the Mohammedan Filipinos of those islands to the principle of solidarity and national unity in the fight for independence.

The council has just returned from a tour of the middle islands where the purpose of the coalition was explained to the people. The towns of Romblon, Silay, Talisay and Iloilo were included in this trip. Great crowds greeted the speakers wherever they appeared and cheered each denunciation of American sovereignty in the Philippines.

The Supreme Council is composed of President Quezon of the senate, Speaker Roxas of the house of representatives, the two minority leaders and six others, equally divided amongst Democrats and Nationalists. American opinion toward the council is split into two main groups. One group, which is understood to include Governor General Wood, believes that the coalition will last several months and then break up.

May Assume Control
The other group openly charge the Filipinos with attempting to establish a super-government and circumvent American sovereignty by illegal means. They base their position on the ground that the council possesses all necessary machinery for the promulgation of decrees and other executive functions. They even plan to levy taxes called "voluntary assessments" on incomes, corporation profits etcetera.

SEEK CARS FOR TRANSPORT OF SALT, COAL AND GRAINS

Asiatic

Owing to the shortage of salt, coal and coarse grains for the poorer classes of the Peking population, both General Chang Chih-kiang and General Yen Hsi-shan have wired to the Chamber of Commerce stating that they are collecting railway car trucks for commercial purposes on the Ching-Shui and Ching-Han Lines.

The prices of salt, coal and coarse grains are now nearly three times higher than last month and no buyer is allowed to purchase large quantities.

In order to prevent serious riots, the police have taken the matter in hand by prohibiting any further rise in the prices of the daily necessities.

Bodyguards Offer Proof But Press Is Not Convinced

Bring in Pistols, Sticks And Kerosine To Show Viciousness Of Students; Papers Ask Why They Waited Three Days

Asiatic

Regarding the killing of students last Thursday, the commander of the Cabinet's bodyguards has sent one dozen of pistols, some sticks as well as many bottles of kerosine oil to the Court of Justice as evidences to show that the students under the command of Hsu Chien did try to destroy the cabinet buildings and also to inflict bodily harm to the guards. Hence, according to the statement of the guards commander, his men only opened fire on the demonstrators for self-defence and he, therefore, would not accept any responsibility for the unfortunate incident.

But the majority of the vernacular papers condemned the pistols and other articles produced by the guards as false on the ground that only a portion of the demonstrators carried sticks and that the guards failed to bring them to the court until three days after the incident.

Soviet Oil Co. Gets Contract Despite Socony Competition

Severe Struggle For Turkish Oil Monopoly Contracts Nets Large Order For Russian Syndicate

Tass

Moscow, March 20.—The Soviet Oil Syndicate, Neftsyndicat—has obtained the contract for the supply of benzine and kerosine for the Turkish State Oil Monopoly in spite of the severe competition of the Standard Oil Company.

"The fight around the question of the monopoly of oil products in Turkey has been going on for the last three months," said the Chairman of the Neftsyndicat to a Tass representative, "but even before that time the Neftsyndicat managed to secure half the market for kerosine, in spite of the desperate competition of the great world oil enterprises. The competition was made more keen by the expectation that the oil monopoly would be leased as a concession. Each bidder exerted every effort to obtain this concession. The Turkish Legislature, however, decreed that it should be a State Monopoly, purchases of oil products to be made by inviting tenders from various firms.

"The first contract obtained by the Neftsyndicat is for the supply of 12,000 tons of kerosine and 3,000 tons of benzine. Considering the keen struggle that went on around this contract," said the Neftsyndicat Chairman, "it must be regarded as an important victory for Soviet oil."

Japan Reticent On The Subject Of New Note On Taku

"Yi Shih Pao" Condemns
Japan For Urging Powers
To Send Ultimatum;
Mountain Out Of More Hill

Chung Mei
The Japanese Legation yesterday refused to comment on the Tokyo reports that a fresh note was to be handed to China on the subject of the Taku incident between the forts and the Japanese destroyers.

The *Yi Shih Pao* touching on this and on the reactions to the ultimatum of the Protocol Powers, asserts that Japan acted in a very conciliatory manner following the exchange of fire between destroyers and fort, but turned around and urged the other powers to press the ultimatum on China.

HU SHIH THINKS ENGLISH LACK TACT

Kuo Wen
Shanghai, March 18.—Dr. Hu Shih, one of the three Chinese members in the British Boxer Indemnity Committee, in an interview declares that though the disposal of the British Boxer Fund and the procedures adopted thereon are analogous to those adopted by the United States, the latter is more tactful in that the word "remitted" is used in the British Parliament Bill. Negotiations are progressing but no definite decision as to the channel to which the fund is to be expended has yet been reached. Dr. Hu sees some difficulties in the scheme to appropriate it for railway construction.

M. Briand was forced to leave the speakers' tribune, because of the continued yelling by the opposition, when he attempted to explain the Geneva fiasco.

The Paris press says that M. Briand's position is not secure in spite of his recent apparent success. The Paris "Matin" says that the Cabinet will be defeated at the first occasion as a reliable majority is not to be had.

Chamberlain Silent

Sir A. Chamberlain on his arrival at London was enthusiastically received by his fellow members in the Cabinet. He declined to talk about Geneva according to a London despatch and merely remarked the explanations will be given in the House of Commons on Tuesday. "I would rather wait until I have mounted the scaffold."

Brazil's Reason

Berlin, March 20.—Brazil made opposition in Geneva on account of her objection to the Locarno treaties stating Brazil opposed all political clans and not on account of Germany's entrance into the League, according to reports from official quarters in Rio de Janeiro.

According to the "Echo de Paris," the German Government is demanding the strictest guarantees for the next League session—to avoid the recurrence of the Geneva fiasco.

Troubled Over The Eight-Hour Day

British Ask Its Application
To German Reparation
Deliveries

Asiatie
Berlin, Mar. 20.—At the International Conference on the 8-hour day meeting now in London a deadlock was reached, when Great Britain demanded that the 8-hour day be also applied to the Dawes Plan and reparation deliveries. The French delegates, however, took sides with Germany in opposing this demand. The British delegates insist that the Hague Tribunal be called upon to decide each case where the 8-hour limit agreement is not respected, but this was again opposed by the other delegates.

COMMUNISM NOT A MENACE

(Continued from page 1)
When the time comes, the quarrel between Hongkong and Canton will be adjusted.

British Obstinacy

"One of the chief obstacles to a settlement now seems to be the traditional obstinacy of the British. They should assume a more open frame of mind and the British government should replace the present British consul in Canton (Shameen) with a new man who would not have the background of personalities which makes the present consul persons no grata to the Chinese."

Tong Shao-yi is living in Shanghai in a sort of active retirement. He keeps in close touch with public affairs, often making known his views on essential matters in conversations with his friends, transcripts of which are furnished the press.

The former premier is in his sixty-fourth year, a kindly courteous man who looks out on troubled China through his student's horn spectacles with the unworried eyes of a philosopher. He is a graduate of Columbia University, New York, and has had a long and active career in Chinese public affairs.

Japan Consul System To Be Re-organized

Two Divisions For China,
One At Mukden, One At
Shanghai; New Powers
Are Granted

United Press
Shanghai, March 17.—The Japanese Foreign Office is re-arranging the entire Japanese consular system in China with a view to centralizing authority and thus permitting smoother functioning of the service and settlement of local difficulties. The change is to take place immediately.

In an interview with S. Yada, Japanese Consul-General here, a representative of the *United Press* was informed that the entire country will be divided into two major divisions, under what might be called super-consulates-general with chief offices at Shanghai and Mukden. As frequently reported, the Legation at Peking will be raised to the rank of Embassy.

Yada In Shanghai

Mr. Yada, who has held the rank of Minister in the Japanese diplomatic service for three years, will be in charge of the local office, while S. Yoshida, transferred to Mukden after Mr. Funatsu's promotion, is to remain there with a similar rank. The ministerial title is of carriage, but not legationary. Mr. Yada did not leave the impression that the change in the Japanese system would affect the inter-consular relations in Shanghai—it was purely a Japanese scheme for more effective co-operation.

Fifty Consulates

In outlining the principles of the plan, Mr. Yada showed how the consular offices in China, roughly fifty in number, constitute nearly one-half of the entire Japanese system, proving too unwieldy to permit either the Foreign Office or the Legation to deal with them. Another reason for the change is the uncertain local conditions, with wars frequently making for such delay that matters of importance grow stale before departmental heads receive adequate information.

Find Serum To Check Infant

Director Of Pasteur Institute
Announces Discovery; May
Lower Infant Mortality Rate

United Press
Paris, March 2.—Dr. Albert Calmette, director of the Pasteur Institute in Paris, announced to-day before the Academie de Medicine the successful development of a serum designated "BCG" for vaccination of newborn children as a means of prevention of tuberculosis.

During tests over a period of five years, Dr. Calmette and his associates experimented upon 5,000 children in France, Belgium, Indo-China and Bengal, where before the vaccination tests were started the mortality due to tuberculosis varied from 25 to 32 per cent.

Through use of the serum, the rate was reduced to seven-tenths of one per cent. Swallowed, the serum gives protection over a period varying from twelve to eighteen months. The French Government intends to use the serum in an active fight to cut the rising infant mortality.

Chia Cabinet Resignation Not Accepted

Urge Members To Continue In Office Because Of Present Unsettled Conditions

Chung Mei

The resignation of the Chia Teh-yao Cabinet having been immediately returned unaccepted by Marshal Tuan, a special meeting held Sunday was attended by all Ministers except Lu Hsin, Minister of Justice.

The Premier and Chief Secretary attended office yesterday morning and it is expected that the regular Cabinet meeting will be held today.

The return to duty of these officials is said to be partly due to the action of General Li Ming-chung in sending his Chief of Staff to urge the Premier to continue his duties.

The sudden change in the military situation has revived the demand for a general rehabilitation conference at which it is suggested that the army leaders, including Wu Pei-fu, Chang Tso-lin, Chang Chih-kiang and others meet with the prominent civil figures of the nation to discuss what can be done to preserve peace.

Other reports maintain, however, that the whole complexion of the government is faced with change and that nothing can be done until it is seen what the effect of the sudden alteration of military situation will be.

PEACE HOUSES IN VIEW AS REPLY

(Continued from page 1)

leaders to the peace appeal during the week-end. The first from General Lu Chung-lin, Tang Tze-tao, Cheng Chih-sheng, Men Chih-chung and others reads:

"It is with great appreciation we read the message calling for peace. However, the recent fighting in the vicinity of the Capital conducted by the first Kuominchun was compelled by the situation. For the past month or so, the evil of fighting has been lengthened bringing both the militarists as well as the people to the verge of exhaustion. Besides both internal and diplomatic troubles have arisen. It is with great fear we predict the future.

"As to your telegram calling for peace, it is of the kindest words, to which we should readily consent. Acknowledging your instruction, fighting is hereby ordered stopped to negotiate peace. In case all sides deal in sincerity, peace can be immediately materialized.

"With regard to the telegram of his honour, Wang Shih-tseng, pointing out ways for peace, we would heartily embrace them. Accepting such instruction, the cessation of warfare is ordered on the front and troops are to be withdrawn to their original places, awaiting further instruction, so that the desire for peace shown by this army can be realized. With the greatest sincerity we send this reply."

Sun Yueh's Reply

Tupan Sun Yueh of Chihli sent the following wire:

"It is a great pleasure to say that the telegrams calling for peace have been received. The incessant civil war will mean the destruction of this state. The strength of the people would be exhausted, and the troops lose their support. It is only because of suspicion that the present situation is created. Leaders are so enraged with one another that they forget to weigh advantages and disadvantages.

"Since the message calling

Reuter

Washington, March 20. — On the understanding that the proposed conference at Geneva on the American reservation with regard to the World Court will be held merely for the convenience of nations adhering to the Court and that it will not involve any action by the League peruse the State Department has indicated that the American Government will offer no objection to joining the discussions.

Kuominchun Deny That Bodyguard Will Be Disarmed

Compensation To Victims To Be Discussed By Cabinet At Today's Session

Chung Mei

The Kuominchun yesterday denied the report that it had decided to disarm the bodyguard responsible for last Thursday's shooting.

The compensation offered to the victims by the Chief Executive's mandate of Saturday, is to be handled by a joint commission of the Ministry of Interior and Ministry of Education. This matter will be submitted to the Cabinet today.

WOMAN AMBASSADOR GIVEN NEW POST

Tass

Moscow, March 20.—The woman Ambassador of the U.S.S.R. to Norway, Alexandra Kolontay, who has held that position for several years, has been allowed to retire from that post by a decree of the Central Executive Committee. Mr. Makar, former Counsellor to the Soviet Embassy in Rome, has been appointed in her place. Madam Kolontay will be appointed to another post.

for peace is just and benevolent, every one will be moved unless he has no character. Since I serve in my native province and fully realize the love of people, I have ordered the troops on the front to withdraw.

It is hoped that the opponent militarists should respect the public will, and that the negotiation for peace might not lead to other untoward happenings. I will obey all your instructions with hearty desire."

Former Premier Chuang Shao-tseng sent a circular telegram backing up Marshal Wang's appeal for peace.

Withdraw Yesterday

All Kuominchun troops should have been withdrawn from the Tsangchow and Luanchow fronts and Tientsin evacuated yesterday according to a Kuominchun official yesterday afternoon.

"We are returning to our home in the Northwest to stopping the civil war," this official said. As to whether a temporary fight would be made to retain Peking, he was naturally reticent, explaining that appeals had been made to the Kuominchun by various sources that it should not give up the capital. However, thus far no decision had been arrived at.

The withdrawal from the fronts is claimed to have been accomplished without the loss of a single soldier and the Fengtien troops did not realize that the Kuominchun had left the Luanchow area until two days after. When they heard of it they retreated themselves, fearing some trick.

No Train Service

They, however, returned and it is expected that they already have occupied Tientsin. Train service with that port was suspended yesterday. Although the morning train started, it returned from Fengtai. The train from Tien-

Canton Will Refund Overpaid Taxes

Mayor Going Over Predecessor's Books; Administration Shows Surplus; To Reopen Mint And Relieve Unemployment

Chung Mei

The Mayor of Canton, Dr. C. C. Wu, is reported to have announced the appointment of an auditing commission which will go over the accounts of his predecessors for the purpose of finding over-paid taxes, which he promises to refund.

The Canton administration declares that it is free from military interference, at least so far as financial matters go, and it points to a surplus of \$18,000 in January, left after the redemption of two loans made by local merchants last year. The net receipts for January are stated to have been \$315,000.

The local administration is also reported to be preparing to reopen the Canton mint which turn out dollars, and twenty cent pieces with the likeness of Dr. Sun Yat-sen. This reopening is expected to provide work for at least one thousand people.

The new coins, which are looked upon as one of the first steps in the monetary reform, will be coined with regard for the necessary standards and with precautions against the possibility of counterfeiting.

Representatives of twenty-two hsien from the eastern part of Kwangtung met at Swatow early this month and with delegates from the Chamber of Commerce, labor unions and educational circles, discussed a general administrative programme.

TO PLAN WOMEN'S INTERSCHOLASTIC MEET

United Press

Plans for the proposed women's interscholastic athletic meeting to be held in Peking are to be discussed at a conference in Central Park today to which all athletic instructions have been invited.

Tientsin did not start. Instructions to the booking offices from the Railway states that tickets might be extended to the 28th or money refunded. Thus a long interruption is foreshadowed.

The Kuominchun troops began coming into Tientsin by train and overland and from there they were transported to Fengtai and thence to the Kin Sui for Kalgan. It is understood that eight train loads passed through Peking Sunday and even more yesterday.

Two hours before Commander Lu Chung-lin left Tientsin, early yesterday morning, a suspicious figure was noted at the corner of the Peking Mukden Railway Administration building and when ordered by the police to stop, he began to run. Shots fired at him, brought him to the earth and as he fell, a bomb exploded a few yards from him. He was arrested.

Rioting is reported to have been indulged in by Tupan Sun Yueh's troops at Tientsin when the men at Ho Pei upon the withdrawal of the 1st Kuominchun began robbing shops. Since there were not many troops involved, it is reported that the damage done was not very grave.

With the withdrawal of the Kuominchun, General Chang Hsueh-liang arrived at Luanchow on Sunday morning while the Fengtien vanguard had reached Ku Yia at that time.

Gives Up Post As China Envoy To Cuban Republic

Dr. P. K. C. Tyau Had Trouble With Legation Secretary Over Advisor

Asiatic

Dr. P. K. C. Tyau, who was well known to both foreigners and natives when he was councillor of the Waichiaopu in 1922, has vacated his post of Chinese Minister to Cuba and is returning to China for duties at the Foreign Office again.

Dr. Tyau has sent in a petition to the Waichiaopu complaining that he had been wrongfully charged by two of the secretaries of the Chinese Legation at Havana in connection with the employment of a certain Cuban adviser and says that since his arrival at Havana three years ago, he has been in good relations with the Chinese colony in Cuba. Dr. Tyau is the elder brother of Mr. M. T. Tyau, newly-appointed secretary of the Waichiaopu and editor of the Economic and Science Weekly.

FORBID WEALTHY TO STOCK SUPPLIES

Asiatic

Owing to railway disruption, there is a scarcity of salt and kerosine oil in Peking. General Li Min-chung has issued an official notice prohibiting the wealthy residents to buy large quantities of daily commodities. Each buyer is to be permitted to purchase, at most, one catty at a time.

General Li Min-chung has issued an official proclamation advising the residents of Peking not to be worried about the scarcity of daily commodities. General Li threatens to mete out severe penalties to rumour-mongers who dare to create disquieting rumours at present critical moment.

YUEH WEI-CHUN IS MURDERED, SAYS WU

Asiatic

Marshal Wu Pei-fu has circulated a telegram from Hankow announcing the death of General Yueh Wei-chun, Tupan of Honan and commander-in-chief of the second Kuominchun, and General Li Hu-chen, one of the divisional commanders of the second Kuominchun army in Honan. According to Wu Pei-fu, both Yueh and Li were murdered by the Honan Red Spears at Chenchow on 17th February when they tried to return to Shensi and that their remains were buried at Shenchow.

that the concentration of Shansi troops at Tatungfu has been completed, it is feared hostilities between the first Kuominchun and the Shansi army will break out in the course of a few days. General Yen Hsi-shan's decision to throw in his lot in favour of Chang Tso-lin and Wu Pei-fu threatens the vital point of the first Kuominchun on the Peking-Shuiyuan Railway as he can deal a death blow at Kalgan if he likes and consequently, the Kuominchun leaders have expressed their willingness to withdraw their armed forces to the northwestern frontiers for the development of the vast natural resources by giving up Peking, Chihli and Jehol as buffer states. The Chinese civil war is reaching its final phase now.

Sun Yueh Asks Relief From Job

Constant Illness Demands Retirement, Says Tupan Of Chihli Province

Asiatic

Owing to his constant illness, General Sun Yueh recommends the appointment of the Kuomintang General Li Lieb-chun and ex-Senator Chang Chi, a prominent civil leader of the Kuomintang, as acting Tupan and Shengchang of Chihli respectively, as General Lu Chung-lin is too busy with military affairs.

As a matter of fact, General Li and Mr. Chang are informally performing the military and civil functions of the Chihli Tupan at Tientsin with the concurrence of Marshal Feng Yu-hsiang who objects to General Lu's appointment to the Tupan position for preventing the creation of wrong impressions that the first Kuominchun troops are fighting for their own private gains.

PLAN TO BURY VICTIMS

(Continued from page 1)

says "we deplore the tragic outcome of the student demonstration on Thursday, the 18th, which resulted as far as we can learn in the following casualties among our own students.

Miss Wei Shih-yi was killed by a bayonet thrust in her breast and apparently by one or two bullet wounds in addition.

Miss Wei Chung-chih, a Freshman, received a bullet wound in the thigh, which ought to result in complete recovery.

A former student, Miss Li Yun-hsia, who has been for some time in delicate health, was also severely wounded and bruised in several places, and is now lying in a very critical condition at the P. U. M. C. hospital.

Four more students were wounded, Mr. Wei Chih, a Junior, and Mr. Jung Chih-tung, a Sophomore, are at the Methodist Hospital, and Mr. Li Yen-ling, a Sophomore, and Mr. Kuo Ts'an-jan, Special, are at the P. U. M. C. Hospital. With the possible exception of one of these, there seems every reason to look for recovery without permanent injury, and in the one case symptoms are favorable so far.

Those Attending

Although a large number of students attended the mass meeting at the Tien An Men, it seems that no more than about forty of the men students, and ten or fifteen women students actually were in the parade that reached the courtyard in front of the Chief Executive's Office. We are confident from all the inquiries we have made that none of these students had any thought of doing more than joining in a demonstration of protest, and suspected no violent action on the part either of the demonstration or of the authorities.

Memorial Service

A Memorial Service was held at four o'clock, on Friday, at the Women's College.

The sophomore class, of which Miss Wei was a member, has been entrusted with the care of the casket, and other arrangements. Miss Wei's uncle and his family, who live in this city, were present.
